

Top Dog Makes 10!

1. Roll the dice or draw a card (ace = 1, face cards removed)
2. Find your card's 10 partner. Put your counter on the circle next to it. If the spot is already taken, no problem. Put your counter over the other counter.
3. **Who's the top dog?** Keep playing until the teacher says stop! Then count how many times your counter is on top. If you have the most counters, you are the top dog!

Top Dog Makes 10!

A vertical sequence of ten rows, each containing a circle, a numbered arrow, and another circle. The arrows alternate direction: right-pointing (1, 3, 5, 7, 9) and left-pointing (2, 4, 6, 8, 10).
