Name: _____

Design some spaceships to sell at the Spaceship Store! Give each spaceship a fair price.

Name: _____

Chewy would like to buy some spaceships.

Give him enough money to buy **four** and still have enough money left over to put away for a rainy day.

It is a good idea to estimate:

How much money do I get to spend?

Show how you figured it out!

Now show how much money Chewy has left over every time he buys one spaceship.

Write a subtraction equation and solve using number line thinking.

Show how much Chewy has left to spend!

Spaceship 1

Equation: _____

Spaceship 2

Equation: _____

Spaceship 3

Equation: _____

Spaceship 4

Equation: _____

How much money is left for a rainy day?
